

FUNDRAISING ANNOUNCEMENT

The International Sándor Ferenczi Network (ISFN) of individuals, societies, study centers, and allied institutions was founded in Toronto (CA) in 2015, and legally established in Florence (IT) in 2016, with the aim to further the development of psychoanalysis along the lines anticipated by Sándor Ferenczi.

As an outgrowth of our 2018 conference in Florence, a committee has been formed to begin work on a new English language edition of Ferenczi's writings. The current three-volume edition of Contributions is incomplete and inadequate, and no definitive edition exists in any other language. The English edition, particularly in the first volume, is often incorrect, not well translated, and lacking passages from Ferenczi's original texts. Because this is a project sponsored by, and undertaken on behalf of, the International Sándor Ferenczi Network, and we want to proceed in the spirit of mutuality exemplified by Ferenczi himself, we are calling this the "Network Edition."

In 2020 the ISFN Board approved the Network Edition project, envisioning this as an indispensable foundation for future research and scholarship regarding Ferenczi, and the culmination of the "Ferenczi renaissance" that began with the publication of the Clinical Diary in 1985.

On November 9, 2020, further support of the editorial project was given by the ISFN General Assembly, which approved its financing through fundraising.

On November 21, 2021, a contract was signed with Phoenix Publishing House Ltd for a 10-volume set projected to be completed in 10 years.

THIS EDITORIAL PROJECT INCLUDES:

- A complete bibliography
- The translation of previously untranslated papers from Hungarian or German into English
- New translations of already translated papers, as needed, from Hungarian or German into English
- An editorial apparatus
- An introduction for each volume
